

Coronavirus Information

Here are the some of the main procedures we are implementing, to help prevent the spread of Covid-19:

- ✓ Increased cleaning of high touch areas with virucidal disinfectant
- ✓ All front of house staff to have their temperature checked upon arrival
- ✓ All staff to wear face coverings
- ✓ Increased hand washing
- ✓ Reduced number of tables and reduced number of covers allowed to sit at once, which minimises the chance of queueing
- ✓ Dividers have been installed between every table
- ✓ No waiting area due to inability to socially distance in our small bar area
